## Make your own Joey Scout Butter

Issued Nov 2005

### Equipment Needed:

A glass jar with a screw on lid.  
250ml double cream  
A marble

### To Make:

Place the cream and marble in the jar and close the lid tightly.  
Shake for about ten minutes. You will be able to feel the mixture becoming thicker.  
Drain off the buttermilk leaving a ball of butter. Add salt to taste.

You could try this recipe and give each Joey Scout a small jar with cream and a marble. You will need to adjust the amount of cream to suit your Mob size.

Once you have made your butter use it on crackers for afternoon tea.

**Note:** Adding the salt not only makes the butter tastier but also helps preserve the butter by hindering the growth of micro-organisms.
