

The Bulletin needs photos

As you are all aware the Bulletin has changed format, so, to continue to keep the quality improving we need more photos for the banner heads and galleries within the Bulletin.

We need your help!

As a guide we need photos in the following format.

We need:

- Photos in landscape format (good for banner heads)
- Close up photos of Youth and Leaders preferably
- Resolution of 4Mp or greater (we can reduce resolution but not increase)
- Portrait photos are good for column fillers and the Gallery
- Youth and Leaders carrying out activities, award presentations etc, the focus of the Bulletin is people not so much landscapes (we will however, make a feature of particular bushwalking trips etc).

What we can't use:

- Photos that are blurry
- Photos that are low resolution
- Photos that are too dark
- Photos of members in old or inappropriate uniforms (Old uniform photos will not be published)

Remember we don't need 100 photos of the same event we just need the few photos that you think are the best that you would like to have published.

Included are some examples of the sort of photos we would like to receive.

Also we would like to hear from you with articles for the Bulletin as well. Articles on camps, bushwalks, award presentations etc are more than welcome.

We need your articles in word format no longer than 500 words. We cannot accept Pdf documents or excel formats.

Finally, the Editors decision is final, submission of photos and articles does not guarantee that they will appear in the next addition of the Bulletin or at all.
